## Languages

I'm a polyglot programmer and enjoy learning new things.

## Databases

I've been working with RDBMS and Documents databases in data-heavy companies. I love working with data.

## Dev Tools

The Gnu Core Utils, Git, and Docker bring a lot of power for most of the developer's tasks.

## What I can do

Backend engineer  
DevOps  
System architecture  
Product Owner  
CTO for a SaaS

# Dominic St-Pierre, software engineer

I'm a passionate software engineer. I've been building software systems from all company sizes and scales for the last two decades. I like it when the end users of software are delighted to use it.

## Work history

### Equifax Canada Consultant / Data specialist

I acted as the CTO at Profil Credit and helped facilitate the acquisition/transition when Equifax acquired the company.

Feb 2022 - present

Acquisition process  
Data ingestion  
Security audit

### Focus Centric Owner

Focus Centric is a small software consulting company that helps businesses reach their goal with technology and software systems.

Oct 2007 - present

Build custom software  
Manage clients projects

### LeadFuze Co-founder & CTO

LeadFuze generates leads for its clients in an automated way.

Jan 2015 - Aug 2016

Built SaaS & processes  
Grew to 8 employees  
Managed 3 devs

### Profil Credit Junior developer to CTO

Profil Credit provided credit reports and risk analysis to its clients in the food industry. I built the entire company IT department all to the acquisition by Equifax.

Jan 2001 - Jan 2023

Built all systems  
Managed databases  
Managed infra  
Managed the IT dept.
